# EMERGENCY PREPAREDNESS ORGANIZATIONS

Request Info:

The University of Georgia (UGA) Office of Emergency Preparedness (OEP) works to foster a culture of preparedness on campus to enhance the safety and well-being of students, faculty, staff, and visitors. To support this mission, **our organizations train and mobilize UGA community members to prepare for disaster response and volunteering.**

## UGA Community Emergency Response Team (CERT)

The UGA CERT program educates the campus community (faculty, staff and students) about disaster preparedness and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization and disaster medical operations. This is an 8-week course offered every fall and spring.

Each semester consists of the following classes: Making an Emergency Kit, Basic Emergency Preparedness, Stop the Bleed/Patient Assessment, Basic Search and Rescue, Fire Safety, Terrorism, Disaster Psychology, and a Final Exercise

## UGA Medical Reserve Corps (MRC)

The mission of the University of Georgia Medical Reserve Corps is to support the UGA Campus, Athens-Clarke County Emergency Management Agency (EMA), Public Health, and the local hospital response plans where medical personnel support is needed. This is an organization with a student group and community group that meets twice a month.

Meeting topics have included: Medication and Vaccine Distribution, Patient Assessments, Search and Rescue K9s, Mental Health, Biological Weapons, Disaster Management, and Opioid Overdose Response
